RE: ARC Responses to EPA Comments on the Draft Wabuska Drain (OU-7) Phase 1 FSAP

.....  
>>>>>>>

...thanks John. Attached are the updated final draft minutes. Several items are still tracked and the following are noted:

1. attachments included/referenced (attendance roster – Attach 1; white board/flip chart notes – Attach 2) and flysheets created.
2. EPA approved the Phase 1 FSAP via email on 23 December (see attached again) which responds to your deletion on Page 5 (and EPA NTP on Table 1). Suggest rejecting deletions on Page 5.
3. added the suggested language to the conclusions (still tracked).

All other edits are accepted, and the final draft minutes are attached for review/concurrence. We will assemble into a single .pdf and distribute once comments/approval is received.

Regards,

**D. Ken Greene, CHMM**

Ken: We appreciate your initiative in assembling these notes. JC and I have both reviewed them, and have made several edits, all but one of which are additional inclusions. As there are details in the color board notes (captured in photos), we suggest that the three ending board photos (the board was filled three times) should be attached and cited. Our best three photos are attached.

As to the one deletion on Page 5, we think it would be better for EPA to give its approval of the Phase I FSAP through its formal correspondence.

Last, and this is a matter of tone so we have not yet made an edit in the text, Dante made a strong, pragmatic, and patient effort to press forward the scoping of subsequent phases in the afternoon portion of the meeting. His efforts were met with pretty strong and uniform resistance by ARC. Perhaps adding a line to record this effort should be added to the Conclusion section such as:

*“The EPA PM guided the afternoon discussion toward the scoping of subsequent phases. ARC was resistant to such specific scoping, preferring such planning be deferred until the Phase 1 results were in hand. “*

We trust this input is helpful.

John:

Attached are the draft minutes from the 15 Dec 2015 YMS OU-7 strategy discussion meeting for your review/edit. To complete the review submittal, the attendance roster and a picture of the easel flip-chart (for your records) are also attached. As you get into these let me know if there are questions/comments, and we can forward to Dante when you are done.
